COMMUNITY INITIATIVE FUND

OVERVIEW: The Chamber's Community Initiative Fund was created to help further the Chamber's name in the community by funding opportunities to partner and collaborate on projects that impact the community and or groups within the community. These initiatives include but are not limited to opportunities to support workforce development, healthcare, education, leadership development, food insecurity, and community celebrations. While there are some established community programs/events we already support (see list below), there are also programs currently in development within the chamber. Contributions to this fund will help fund these new chamber programs such as Bus Tours of Industry for students and parents, development of a student chamber program, programs for senior college students to engage with local businesses and stay local after graduation.

Additionally, the Auburn Chamber is asked to participate as a partner or sponsor for these and other types of programs, and giving to the Community Initiative Fund will enable the chamber and our partners to further our name, reaching audiences that are not already engaged in the chamber, without taking away from the programs we offer to our membership. Collaboration with these entities in our community also helps to strengthen those relationships and will help bring awareness to not only support the businesses in our area, but to help ensure our quality of life is maintained for our citizens. We realize what is good for Auburn is good for business and vice versa.
